LAMAS I DATA INVENTORY

STUDY TITLE : Los Angeles Metropolitan Area Survey, No. 1

PRINCIPAL INVESTIGATOR : survey was conducted by the Survey Research Center, for a list of those who have contributed questions, please see further documentation.

ORGANIZATION COLLECTING DATA : Survey Research Center, Institute for Social Science Research, UCLA.

SOURCE OF DATA : Los Angeles Metropolitan Area

DPECSITOR : Survey Research Center, January 1978

KIND OF DATA : Survey

UNITS OF OBSERVATION : by head of household

DATE OF COLLECTION : May 14, 1970- - - July 10, 1970

KIND OR TYPE OF SAMPLE : see report on sample design which follows this section.

METHOD OF COLLECTION : questionnaire administered through personal interview.

ABSTRACT : The goal of the LAMAS studies is "the development of a set of standard "community profile" measures appropriate for use in the planning and evaluation of public policy." Questions in this survey cover respondents' attitudes toward the following topics: air pollution, # of children, level of education attained, ethnic identity, health care services in the community, housing, income levels, local government politics, politics in general, party affiliation, mobility, occupation, police relations, recreation and leisure time, regional background of respondent, religious preference, schools, education levels, segregation. The investigators supporting the survey were studying clean air, mobility, political attitudes, education, integration, health and psychological factors .

RESTRICTIONS ON USE : none, released for general use to the UCLA community.

DATA STORAGE FORMAT : tape

DOCUMENTATION RECEIVED : copy of original questionnaire, complete codebook, all tape files, sample design report, weighting factors report, list of participants.

SAMPLE SIZE : 700 white resp. 205 chicano resp. 121 black resp.

TOTAL NUMBER OF RECORDS : 6156 1026 cases, 331 variables in SPSS format

DATA ORGANIZED BY ID# UNIT OF ANALYSIS : respondent

DO DATA CONTAIN NUMERIC CODES ? yes, in selection tables for income, education

DO DATA CONTAIN MULTIPLE PUNCHES ? no

COMPLETE TAPE DOCUMENTATION AVAILABLE? yes, but consultation with programmer is probably necessary.

Sampling Design for LAMAS I

The primary aim of the sampling design for LAMAS was to obtain an ultimate sample of 1,000 households from Los Angeles County which hopefully was, in general, a representative of the entire population.

As the nature of LAMAS was a shared time survey¹ and most of the measurements were made on opinions or attitudes of individuals interviewed, it was not possible to design a sample which would be a balanced sample of Los Angeles County in respect to those characteristics. From the standpoint of the availability of pre-survey information, it seemed to be appropriate to use some key socio-economic and geographic factors, namely, median-income, percent-white, and geographic areas, as our control factors for obtaining a representative sample of the population of Los Angeles County. These control factors were imposed to the first stage of a four-stage sampling design where frame cells, census tracts within cells, census blocks within tracts and listing units (addresses) within blocks constituted the units used at each stage. A method of probability sampling with marginal constraints in three dimensions was adopted.² With this method, a sample of 30 census tracts was drawn with probability proportional to size (population) with control on three factors simultaneously. This three-way controlled sampling of Los Angeles County is described in the following.³

The 1,394 census tracts in the county were categorized according to median-income deciles, to per-cent white deciles, and to six geographic areas.⁴ The deciles each represent about 600,000 persons on 1960 Census population data, and the size of the geographic area varies from 900,000

to 1,100,000 persons. The resulting three-dimensional matrix of tracts contained a total of 600 cells, each containing from 0 to 55 tracts (0 to 205,000 persons).

A panel of 24 samples (of 30 cells each) was designated, and the samples were provided probabilities varying from .01 to .13. By randomly selecting one of the samples according to the respective probabilities, it was guaranteed that:

- 1) there were three cells from each median-income decile.
- 2) there were three cells from each percent-white decile.
- 3) there were from 4 to 6 cells from each geographic area, depending on the size of the respective areas.
- 4) the ultimate probability that any particular cell was sampled was proportional to its size (total population).

One tract was selected from each sampled cell as the second-stage sampling unit with probabilities proportional to size (population) to make a sample of 30 tracts with the above four characteristics. Further sub-sampling within tracts could ultimately provide an equal probability sample of an arbitrary number of persons conforming to the three controls. As one of the features of the study was to compare some characteristics of three ethnic groups, namely, Mexican-American, Negro, and White (Anglo), 30 selected Census tracts were classified into three groups according to their population composition. Allocation of the ultimate sample of 1,000 households for three groups is as the following. This allocation

was determined by the consideration other than sampling.

Ethnic Group	No. of Tracts	No. of Households
Mexican-American	3	150
Negro	3	100
White	24	750
TOTAL	30	1000

Preliminary sample size for each group for each stage based on assumptions of different non-response rate and different rate of loss from ineligible sample⁵ is presented at the table next. The total number of HUs for preliminary sample is 1,590.

Sample blocks were selected systematically with a probability proportional to block size. Block size was measured by the number of housing units (HU) in the city block according to the 1960 Census for the tracts with published block data⁶ and by the eye-estimated number of HUs for the tracts with no published block data. After the blocks were selected, all addresses in each sample block were listed. Appropriate sample rates were calculated for each block and sample HUs were selected systematically.

LAMAS I-III

Allocation of HUs for Each Sampling Unit

Ethnic Group	Census Tract No.	No. of Blocks per Tract	No. of HUs per Block	Sub-total for each Ethnic Group
Mexican-American	1994	10	15	450
	2243	10	15

TOTAL

1590

Notes

1. A questionnaire incorporating survey questions from a number of researchers on a common sample in order to save costs and time by sharing the sampling expenses.
2. This method was developed by Professor Raymond J. Jessen of UCLA. Refer to "Probability Sampling with Marginal Constraints" by R. J. Jessen, JASA, Vol. 65, June 1970.
3. Sampling of the first stage was done with assistance from Mr. Jay Sumner, who was completing his Ph.D. dissertation, "A Three-Way Controlled Sampling of Los Angeles County," using Professor Jessen's method.
4. The geographic categories are: (i) San Fernando Valley and North County, (ii) Pasadena and East Los Angeles, (iii) San Gabriel Valley, (iv) Hollywood, Central Los Angeles, and Watts, (v) Santa Monica Bay area, (vi) Compton, San Pedro and Long Beach.
5. Population growth rate, non-response rate, and rate of loss from ineligible sample were estimated as the following:

Ethnic Group	estimated population growth since 1960 Census	estimated non-response rate	estimated rate of loss from ineligible sample
Mexican-American	18%	45%	47%
Negro	18%	40%	15%
White	18%	30%	5%

6. Approximately 1/3 of 1960 Census tracts in Los Angeles County have published data by city blocks.

Record of Study #7010 LAMAS I

In accordance with its original concept of methodological and sociological research, SRC undertook a major on-going study of the Los Angeles Metropolitan Area. The use of this research project was opened to all departments on campus and several outside organizations who might, in the near future, be interested in the results of the questionnaire.

LAMAS I pretest was conducted April 16, 1970, involving 4 interviewers and the debriefing was held April 26. With little revision necessary, the field work began with general briefing for 20 interviewers on May 14 and went into the field immediately. Originally the study was to be completed in one month, but this was a physical impossibility. The deadline was extended to July 10 at which time 1026 interviews were completed. It was decided in the future the field work will extend for two months.

The investigators supporting this study were researching clean air, mobility, political science, education, integration, health and psychology.

Thirty tracts were drawn for sampling, giving us a cross-section of Los Angeles County. The listing was handled by a group of interviewers and completed hurriedly in the two weeks prior to field work. The results of the study as follows:

	<u>No.</u>	<u>%</u>
Sampled HH	1627	-
Comp. HH	1026	64%
<hr/>		
Non-Response	601	36%
<hr/>		
Refused	217	
Not at Home	261	
Temp. Absent	22	
Vacant	50	
Incapable	22	
L.B.	11	
Misc. (Security & Business)	18	

Because of the expected percentage of non-response in some tracts, these tracts were apparently over-sampled. This resulted in an over abundance of assignments for any one interviewer, caused an extension of time to complete the tract, and because of limitations, caused the "not at home" rate to shoot up.

Average interviewing time	4 hours
Average supervision time	40 mins.
Average miles driven	19 mi.

On July 22, a debriefing session was held to get the opinion of 5 interviewers, each covering the various ethnic areas surveyed. The interviewers discussed the study with the staff (Dr. Reeder, Dr. Levine, Mr. Walton, the 2 supervisors and 2 research assistants). The information obtained from this session should be of immeasurable help in constructing and designing future LAMAS questionnaires as well as in improving sampling methods.

OPENING STATEMENT: AFTER DETERMINING THAT RESPONDENT IS HEAD OR SPOUSE -

Good Morning/afternoon/evening, I am from UCLA Survey Research Center. We are conducting a study to determine people's attitudes toward what's going on around them today. Your household has been chosen by a scientific sampling process to represent hundreds of households in this area. Everything you tell me will be held in strict confidence and your name will in no way be connected with the findings of this important study.

LAMAS I RECORD SHEET

ID _____ TRACT # _____ BLOCK # _____

FAMILY NAME: _____

ADDRESS: _____ TELEPHONE # _____

DATE OF INTERVIEW: _____

1. First I would appreciate your giving me some information about each person living here with you as a member of your household. Please name each person here who has no other home. List them in this order: Head of household, wife of head, unmarried children (oldest first), married children (oldest first), other relatives, friends and persons not related to head.

LIST IN COLUMN HEADED CURRENT HOUSEHOLD

Current household listing*	A. Relationship to head	B. Age	C. Sex	D. Marital Status if age 14+	E. If in school, grade?	F. Is this public (1) or private (2)?

11.						1 2
12.						1 2

* CIRCLE NUMBER THAT REPRESENTS RESPONDENT

Now, I'd like to ask some questions about where you live.

2. ASK FOR LA CITY RESIDENTS ONLY:

What is this community called?

3. How long have you been living in (NAME OF COMMUNITY)?

less than 1 year 00
Yrs. _____

4. How many years have you lived at your present address?

less than 1 year 00
Yrs. _____

5. Do you own or rent this place?

own 1
rent 2
other 3

SPECIFY: _____

6. How do you feel about living in this area--would you say you are very satisfied, fairly satisfied, not too satisfied or not at all satisfied with living in this area?

very satisfied 1
fairly satisfied 2
not too satisfied 3
not at all satisfied 4
no opinion 0

7. Do you think of (NAME OF COMMUNITY) as your real home - the place where you really belong, or do you think of it as just a place where you happen to be living?

really belong 1
just a place 2

8. Thinking about all the things you do (besides working) - things you do in your free time, shopping, visiting - would you say you do most of these things:

in this community 1
not in this community? 2
half and half 3

9. How many organizations such as church and school groups, labor unions or social civic and fraternal clubs are you actively involved in?

uncertain	2
stay	3

14. Some people say the best kind of community to live in is one where everyone is pretty much alike - do you agree or disagree?

agree	1
neither agree or disagree	2
disagree	3

15. How many cars are available to members of this household?
 (Include company cars, trucks, etc.)

none.....SKIP TO Q.16..... 0
 NUMBER....ASK A..._____

As you may have heard some gas companies are offering a grade of gas without lead. Suppose you were driving down a city street and needed gas. There are two service stations where you could stop for gas. At one of them, you could get the grade of gasoline you need at 38.9¢ per gal. At the other, you could get the same grade of gasoline but free of lead at 41.9¢ per gal. What gas would you buy?

38.9¢ per gal..... 1
 41.9¢ per gal..... 2
 don't know 8

16. Card #1 in this booklet lists some problems that people often talk about. (HAND RESPONDENT BOOKLET) I would like you to look through these and select the three you think are most serious these days.
 (CIRCLE ONLY 3 CODE NUMBERS BELOW)

unemployment 01
 traffic 02
 air pollution 03
 crime and violence in the streets 04
 poverty 05
 availability of adequate housing 06
 quality of local schools..... 07
 public transportation 08
 property taxes 09
 race relations 10

17. Let's talk specifically about air pollution or smog. As far as you personally are concerned, do you feel it is a very serious, fairly serious, or not a serious problem?

very serious 1
 fairly serious 2
 not serious 3
 don't know 8

18. Does air pollution or smog affect any of these things for you - -

	<u>YES</u>	<u>NO</u>	<u>DON'T KNOW</u>
Where the head of household works?....	1	2	8
Where you shop?	1	2	8
Price your home (apartment) would sell for?	1	2	8
How often you wash your car or have it washed?	1	2	8
Outside care and upkeep or your house (apartment)?	1	2	8
Reputation of neighborhood in which you live?	1	2	8
Housecleaning?	1	2	8
What you do outdoors in your spare time?	1	2	8

19. Speaking about the Los Angeles area would you say that smog is definitely worse in some parts of the area than others?

yes	1

Now I have some questions about local government -

28. City governments can provide many services and perform many different functions for their residents. I am going to show you several things that people sometimes tell us city governments should do. Turn to Card #2, then #3, etc. On each of these cards, will you please tell me which of the two items is the most important thing for the city government to do -

A. Protect the value of residents' property 1
 Insure the physical security of residents 2

B. Protect the value of residents' property 1
 Provide the best in services to community residents 2

C. Protect the value of residents' property 1
 Run the government honestly and efficiently 2

D. Insure the physical security of residents 1
 Provide the best in services to community residents 2

E. Insure the physical security of residents 1
 Run the government honestly and efficiently 2

F. Insure the physical security of residents 1
 Keep undesirable people from moving into the city 2

G. Provide the best in services to community residents 1
 Run the government honestly and efficiently 2

29. Here is another list of services provided by local governments. (Turn to Card #9)
 Could you tell me, for each one, whether you think the service you get is worth the taxes you pay or not worth the taxes you pay?

	Worth	Not Worth
A. Police protection	1	2
B. Fire protection	1	2
C. Public education	1	2
D. Welfare	1	2
E. Parks and recreation	1	2
F. Pollution control	1	2
G. Sanitation	1	2

30. Some people say that it would be better if one metropolitan government provided all these services to all the people in the Los Angeles area. Do you think this is a good idea or a bad idea?

good idea	1
bad idea	2
don't know	8

A. Why do you feel this way?

31. There is alot of talk these days about police-community relations. What kind of job is your police department (county sheriff's dept.) doing in the area of police-community relations?

very good job	1
about average	2
very poor	3

A. Why do you feel this way?

32. In the past year, many communities around here have had special elections or referendums dealing with school bonds and school taxes. Do you know if there has been an election like this around here (in the past year)?

yes	ASK A.....	1
no	ASK B	2
don't know	ASK B	8

A. Did you happen to vote in such an election?

yes	1
no	2

(1) Were you in favor of increasing local school spending or were you against it?

in favor	1
against	2

(2) Why did you feel this way?

ASK ONLY IF "NO" OR "DON'T KNOW" TO QUESTION 32

B. If there were such an election this year, would you be in favor of increasing local school spending or would you be against it?

(1) Why do you feel this way?

IF CENSUS TRACT #5304 SKIP TO QUESTION 39

33. Sometimes cities hold referendums dealing with other issues such as zoning, municipal construction bonds, increases in city services or salary increases for city employees. Do you know if any issues like this have been put before the voters in (NAME OF CITY) during the past year?

yes	ASK A, B & C.....	1
no	SKIP TO Q.34	2
don't know	SKIP TO Q.34	8

A. Could you tell me what the issue was?

B. How did you feel about this issue?

C. Did you happen to vote in that election?

yes	1
no	2

34. Some people vote in city elections and other people don't get around to voting in them. Would you say you always vote in city elections, usually vote, sometimes vote or almost never vote?

always	1
usually	2
sometimes	3
almost never	4
not eligible	0

EXPLAIN: _____

35. In general, would you say that local elected officials, like city councilmen, do a good job of paying attention to residents. Other people say that local officials don't care what the average resident thinks or wants. How about you: do you think officials like the city councilmen pay attention to residents or don't they care?

pay attention, care	1
some do, some don't	2
don't care, don't pay attention	3
don't know	8

36. Do you know the names of any of your city councilmen?

yes.....LIST BELOW	1
no	2
lives in county...DO NOT ASK	0

37. In general, do you think the city government is run the way it should be, or not run the way it should be?

run the way it should be	1
in between	2
not run the way it should be	3
don't know	8

38. Some people tell us that there usually isn't anything they can do to affect what the city government does. Other people feel that they can influence what gets decided in this city if they want to. Do you feel that you can affect what gets done and what's decided by the city government, or not?

yes, can affect	1
sometimes, depends	2
no, can't affect	3
don't know	8

39. How interested are you in politics and government here in (NAME OF COMMUNITY)..
 Would you say you are:

- very interested 1
- somewhat interested 2
- not very interested? 3
- don't know 8

40. Where do you get most of your information about what is going on in
 (NAME OF COMMUNITY)? IF MORE THAN ONE GIVEN, NUMBER IN ORDER Please turn
 to Card #10.

- radio 1
- television 2
- L. A. Times 3
- Herald Examiner 4
- local community paper 5
- SPECIFY: _____
- family, friends, neighbors 6
- other 7
- SPECIFY: _____
- not interested in community news 0

41. There has been a lot of talk recently about desegregating public schools so that *blacks*
~~Negro~~, Mexican American and Anglo (English speaking Caucasian) children will attend
 the same schools - how do you feel about this, are you in favor or opposed?
 PROBE: How strong is your feeling? _____

- very favorable 1
- somewhat favorable 2

- somewhat opposed 4
- very opposed 5
- no response 9

Very strong strong
 A. Why do you feel this way? *not all strong*

Co

42. Some parents believe that children would not get as good an education in desegregated schools, others feel that they would get a better education, and others don't think it would make any difference - How do you feel about this?

would get a better education	1
Anglo better, minority not as good	2
minority better, Anglo not as good	3
makes no difference	4
would not get as good an education	5
don't know	8
no response	9

43. Do you think teachers would have less difficulty teaching children in desegregated schools, have about the same difficulty, or have more difficulty?

less difficulty	1
more difficulty	2
about the same	3
don't know	8
no response	9

44. Do you think children would have less difficulty learning in desegregated schools, more difficulty, or about the same?

less difficulty	1
more difficulty	2
about the same	3
don't know	8
no response	9

45. Some parents believe that desegregation would cause fewer behavior problems in class and on the playground - others feel that there would be more problems and some think there would be no difference. How do you feel about this?

fewer problems	1
more problems	2
no difference	3
don't know	8
no response	9

46. Some parents believe that desegregation would cause more problems with social activities such as parties, school friendships, clubs and the like - others feel there would be no more problems than now and some feel there would be fewer problems. How do you feel?

- more problems 1
- no more problems than now 2
- fewer problems 3
- don't know 8
- no response 9

47. Some parents think the other children in desegregated schools would be more friendly to their children, some think they would be less friendly, and others think it would not make any difference. How do you feel?

- more friendly 1
- less friendly 2
- no difference 3
- don't know 8
- no response 9

48. Some parents think the teachers in desegregated schools would be more friendly to their children, others think they would be less friendly, and others think it would make no difference - How do you feel?

- more friendly 1
- less friendly 2
- no difference 3
- don't know 8
- no response 9

49. In some cities, Negro, Mexican American and Anglo families live in different sections of the city, so the only way schools can be desegregated fairly quickly is for some of the children to ride school busses - How do you feel about bussing - are you in favor of or opposed? PROBE FOR STRENGTH OF FEELING

- very favorable 1

yes	ASK A	1
no	SKIP TO Q.53.....	2
don't care ...	SKIP TO Q.53.....	3
uncertain	SKIP TO Q.53.....	4

A. Do you feel fairly confident that they will get into college, or will it be difficult for them?

confident	SKIP TO Q.53.....	1
difficult	ASK (1).....	2
uncertain	SKIP TO Q.53.....	3

(1) Why do you say this?

53. To help bring students from different ethnic groups together in the school system various suggestions have been made; how do you feel about some of these, would you approve or disapprove?

A. Reassign enough students to insure that all schools have a proportion of White (Anglo), Black and Mexican American corresponding to the proportion of these groups in the school district's population.

approve	ASK (1)	1
disapprove		2
don't care		3
not sure		4

(1) Transportation to be provided by:

school district		1
student's family		2

B. Permit students to enroll in existing high schools from a wide enough geographical area to insure an integrated student body.

approve	ASK (1)	1
disapprove		2
don't care		3
not sure		4

(1) Transportation to be provided by:

school district		1
student's family		2

- C. Develop several high schools, each of which, in addition to the usual subjects, would specialize in one field, such as science, art, music, or business, and attract students from a wide enough area to insure an integrated student body.

approve	ASK (1)	1
disapprove		2
don't care		3
not sure		4

- (1) Transportation to be provided by:

school district		1
student's family		2

- D. In addition to existing elementary and junior high schools, develop some new ones to experiment with new approaches to education, and allow students to enroll in these from a wide enough geographical area to insure an integrated student body.

approve	ASK (1)	1
disapprove		2
don't care		3
not sure		4

- (1) Transportation to be provided by:

school district		1
student's family		2

54. Do you think that children attending all black, or all Mexican American schools usually learn as much as those minority group children who can attend schools in which most students are white (Anglo)?

yes	ASK A	1
no	ASK A & B	2
uncertain	ASK A & B	3
don't know	ASK B	8

- A. Why do you say that?

B. ASK OF THOSE WHO DID NOT SAY YES TO Q. 54.

To improve the education of students attending present all black or all Mexican American schools, do you think it is a better idea to spend more money on bussing students to and from present white (Anglo) schools?

spend more on present black and Mexican American schools	1
spend more on bussing	2
not sure	3
don't care	4

C. IF RESPONDENT HAS CHILD IN SCHOOL - Do you think the school your child attends should be integrated?

already integrated	1 What groups?	Black....1
yes	2 What groups?	Mex. Amer.2
no	3		Anglo....3
uncertain	4		
don't care	5		

D. IF NO CHILD IN SCHOOL - If you had a child in school would you want the the school to be integrated?

yes	1
no	2
uncertain	3
don't care	4

55. What school district are you living in ?

IF LOS ANGELES, ASK A

A. There has been discussion about local communities having more control over the schools. How do you feel about the idea of breaking down the Los Angeles School District into about six smaller separate districts which would replace the one large one we have today

strongly favor.....	1
favor	2
don't care	3
oppose	4
strongly oppose.....	5

56. Which are you more interested in , local city politics or national politics?

- local politics 1
- both same 2
- national politics 3
- not interested in either 4
- don't know 8

57. Generally speaking, do you usually think of yourself as a Republican, a Democrat, an Independent, or what?

- RepublicanSKIP TO Q.58 1
 - DemocratSKIP TO Q.58 2
 - Independent 3
 - no party preference 4
 - other 5
- SPECIFY: _____

58. Now, we want to get your opinions about a common problem we all face everyday.

A person is often tempted to do something that's easier or better for himself, but he knows that if everybody did that same thing, we'd all be worse off.

Will you please give me an example of something like this? That is, something a person might want to do because it's easier or better for him, but if everybody did that, we'd all be worse off?

INTERVIEWER'S RATING OF THE DIFFICULTY THE RESPONDENT HAS IN THINKING OF AN EXAMPLE (DEPENDING ON HOW LONG HE TAKES, FALSE STARTS, PUZZLEMENT,ETC.)

- very easy 1
- rather easy 2
- rather difficult 3
- very difficult 4

IF NO ANSWER, GO TO QUESTION 59

A. Why is it easier or better for the person himself to (do...)?

B. Why are we all worse off if everybody (does ...)?

59. One common example of this sort is littering. It's easiest for each person if he drops his papers or cigarettes or trash along the streets, but if everybody did that, the streets would be a mess and we'd all be worse off.

Can you think of another example of this sort of thing - a different example

INTERVIEWER'S RATING OF THE DIFFICULTY THE RESPONDENT HAS IN THINKING OF AN EXAMPLE (DEPENDING ON HOW LONG HE TAKES, FALSE STARTS, PUZZELMENT, ETC.)

very easy	1
rather easy	2
rather difficult	3
very difficult	4

A. Why is it easier or better for the person himself to (do...)?

B. Why are we all worse off if everybody (does...)?

One more important example of this sort has to do with smog. It is easy, cheaper, and more convenient for each person to do things that add to smog, such as: these on Card #12.

drive to work alone rather than with others;
drive rather than take the bus;
or let his smog equipment get in poor shape.

But the more people who do these things, the more we all suffer from smog.

I am going to read you some statements about smog. For each, tell me how strongly you agree or disagree giving me a number from this scale, on Card #13. Number 1 stands for agree strongly, and number 6 stands for disagree strongly. You may of course use any number on this scale. Tell me which number best represents the way you feel.

60. We would all be much better off if everyone was careful not to do these things that add to smog.

agree strongly / / / / / / disagree strongly
 1 2 3 4 5 6

61. Most people have to stop and think about whether or not to do these things that add to smog.

agree strongly / / / / / / disagree strongly
 1 2 3 4 5 6

62. Most people feel that they themselves are responsible for how much smog we have.

agree strongly / / / / / / disagree strongly
 1 2 3 4 5 6

63. People try to keep from doing these things that add to smog.

agree strongly / / / / / / disagree strongly
 1 2 3 4 5 6

64. Most people could be influenced to keep from doing these things that add to smog.

agree strongly / / / / / / disagree strongly
 1 2 3 4 5 6

65. CONTINUE AS ABOVE USING CARD #13

A. .If most other people continue doing things that add to smog, then there's no reason at all for any one person not to do them himself.

agree strongly / / / / / / disagree strongly
 1 2 3 4 5 6

B. Even if most other people continue doing things that add to smog, a person should at least try to set a good example by not doing them.

agree strongly $\frac{\ / \ / \ / \ / \ / \ /}{1 \ 2 \ 3 \ 4 \ 5 \ 6}$ disagree strongly

C. Even if most other people continue doing things that add to smog, a person should at least try to do his part in reducing smog.

agree strongly $\frac{\ / \ / \ / \ / \ / \ /}{1 \ 2 \ 3 \ 4 \ 5 \ 6}$ disagree strongly

D. Even if most other people continue doing things that add to smog, a person can at least feel he's doing the right thing if he doesn't do them.

agree strongly $\frac{\ / \ / \ / \ / \ / \ /}{1 \ 2 \ 3 \ 4 \ 5 \ 6}$ disagree strongly

Now, let me ask about some different things. You can answer them using the same scale.

E. If I see someone whose car has stalled, I feel badly if I don't stop and help.

agree strongly $\frac{\ / \ / \ / \ / \ / \ /}{1 \ 2 \ 3 \ 4 \ 5 \ 6}$ disagree strongly

F. I would rather decide things when they come up than always try to plan ahead.

agree strongly $\frac{\ / \ / \ / \ / \ / \ /}{1 \ 2 \ 3 \ 4 \ 5 \ 6}$ disagree strongly

G. In driving, I dislike yielding to other cars when two lanes merge into one.

agree strongly $\frac{\ / \ / \ / \ / \ / \ /}{1 \ 2 \ 3 \ 4 \ 5 \ 6}$ disagree strongly

H. I seem to be the kind of person who has more bad luck than good luck.

agree strongly $\frac{\ / \ / \ / \ / \ / \ /}{1 \ 2 \ 3 \ 4 \ 5 \ 6}$ disagree strongly

I. If I am waiting in line at a market and have many items, I always let a person who has only one or two things go in front of me.

agree strongly $\frac{\ / \ / \ / \ / \ / \ /}{1 \ 2 \ 3 \ 4 \ 5 \ 6}$ disagree strongly

J. There's not much use for me to plan ahead because there's usually something that makes me change my plans.

agree strongly $\frac{\ / \ / \ / \ / \ / \ /}{1 \ 2 \ 3 \ 4 \ 5 \ 6}$ disagree strongly

K. I would rather win an argument than compromise.

agree strongly $\frac{\ / \ / \ / \ / \ / \ /}{1 \ 2 \ 3 \ 4 \ 5 \ 6}$ disagree strongly

L. I have often had the feeling that it's no use to try to get anywhere in this life.

agree strongly $\frac{\ / \ / \ / \ / \ / \ /}{1 \ 2 \ 3 \ 4 \ 5 \ 6}$ disagree strongly

Please turn to Card #14 - the scale is slightly different. Number 1 stands for extremely competitive and number 6 stands for extremely cooperative.

M. Thinking about the typical person, would you say they are basically competitive or cooperative?

extremely competitive $\frac{\ / \ / \ / \ / \ / \ /}{1 \ 2 \ 3 \ 4 \ 5 \ 6}$ extremely cooperative

N. Now, thinking about yourself, would you say you are basically competitive or cooperative?

extremely competitive $\frac{\ / \ / \ / \ / \ / \ /}{1 \ 2 \ 3 \ 4 \ 5 \ 6}$ extremely cooperative

Let's turn back to Card #13 and use this scale again.

O. In every day life, the typical person often feels uncertain about whether to act cooperative or competitive.

agree strongly $\frac{\ / \ / \ / \ / \ / \ /}{1 \ 2 \ 3 \ 4 \ 5 \ 6}$ disagree strongly

P. Most people can be influenced by the actions of others to be more cooperative themselves.

agree strongly $\frac{\ / \ / \ / \ / \ / \ /}{1 \ 2 \ 3 \ 4 \ 5 \ 6}$ disagree strongly

Q. In fact, the world wouldn't be very much better even if everyone was more cooperative.

agree strongly $\frac{\ / \ / \ / \ / \ / \ /}{1 \ 2 \ 3 \ 4 \ 5 \ 6}$ disagree strongly

66. Do you think it's always a good idea to look for new ways of doing things or do you think it's better to stick to the proven ways you already know about?

- look for new 1
- depends, both 2
- stick by what you have 3
- don't know 8

Now we'd like to ask you a few questions about your health.

67. In the past year have you had any kind of health problem?

- yesASK A 1
- noSKIP TO Q.73 2

A. What was this problem?

68. Did you see anyone (such as a doctor) about it?
THIS DOES NOT INCLUDE TELEPHONE CALLS

- yesASK A 1
- noSKIP TO Q.69 2

A. Who was that? _____

(1) IF DOCTOR OR OTHER TYPE OF HEALER, ASK: Where did you see this ..?

- at home 1
- private doctor's office 2
- hospital outpatient clinic 3
- other 4

SPECIFY: _____

(2) Will you please give me the names and address of this person?

(3) IF DOCTOR: How many times did you talk to a doctor about this illness/
accident?

NUMBER: _____

69. Did you enter the hospital for this illness/accident?

yes 1
 no 2

70. Did you miss any days from work/school/housework because of this illness?

yesASK A 1
 noSKIP TO Q.71 2

A. How many days did you miss? Days _____

71. How was the bill paid?

medicare 1
 company insurance 2
 personal insurance 3
 cash - self 4
 "free"- public program 5
 other 6
 SPECIFY: _____

72. How satisfied were you with the service you received?

very much 1
 moderately 2
 not very satisfied 3
 quite dissatisfied 4

73. I am going to read some statements which are listed on this card. Please turn to Card #15. Just tell me whether you agree or disagree with each of these statements.

And now a few questions about certain health problems -

74. What is the cause of German measles, is it:
- a fungus 1
 - a virus 2
 - a bacteria?..... 3
75. Can tuberculosis be spread from one person to another?
- yes 1
 - no 2
76. Would you say that one symptom (or sign) of diabetes is:
- sugar in the urine 1
 - skin allergies 2
 - excessive coughing? 3
77. What would you say causes a hernia, is it:
- muscle strain while lifting heavy objects... 1
 - not enough exercise while growing up 2
 - poor posture? 3
78. Which of these diseases is sometimes caused by cigarette smoking:
- anemia 1
 - lung cancer 2
 - hemorrhoids? 3
79. Which of these are symptoms of cancer:
- lack of sleep, anxiety, blurred vision..... 1
 - or
 - frequent colds, poor eating habits, trembling and chills 2
 - or
 - unusual bleeding, a sore that won't heal, sudden weight changes, growths?..... 3

80. Would you say that a stroke is caused by:
- contact with a sick person 1
 - bleeding of blood vessels in brain 2
 - not enough vitamin A in diet? 3
81. German measles can be spread by which of the following:
- from food to people 1
 - from one person to another 2
 - from sick animals to people? 3
82. Do you get periodical medical checkups when you are not ill?
- yes 1 ✓
 - no 2
83. Do you believe that a balanced diet is really necessary for good health?
- yes 1
 - no 2
84. Do you believe everyone should be immunized against contagious disease?
- yes 1
 - no 2
85. Have you had any skin or x-ray tests for tuberculosis?
- yes 1
 - no 2
86. In the past four years, how many times has a member of your household been a victim of a medical emergency?

NUMBER: _____

A. Do you consider provisions for Emergency Medical Care in this community as:

- definitely adequate 1
- probably adequate 2
- DO NOT ASK ----- uncertain (don't know) 3
- probably not adequate 4

- menos amables 2
- no habría diferencia 3
- no sabe 8
- no hay respuesta 9

49. En algúnas ciudades, el Negro, el Mexico Americano y familias Anglo Sajon viven en diferentes secciones de la ciudad, así es de la manera mas rápida de más o menos desegregar las escuelas es que los niños se transporten en autobuses escolares. Que opina de esto-esta a favor o en contra del transporte escolar? (Que importante es para usted?)

- muy favorable 1
- algo favorable 2
- indeciso 3
- algo opuesto 4
- muy opuesto 5
- no hay respuesta 9

A. Porqué opina ud. así?

50. (En vista de que tiene niños en la escuela) (Aunque ud. no tiene niños en la escuela) que piensa ud. que las escuelas deberían estar haciendo - por favor, vea tarjeta # 11 y dígame que piensa ud. que es la tarea mas importante de las escuelas?

A. Y cuál es la segunda tarea mas importante?

	Primera	Segunda
1. preparar fuerza de hombre tecnica para la economía	1	2
2. desarrollar piedad y patriotismo.....	1	2
3. ayudar en el crecimiento y desarrollo de las comunidades	1	2
4. preparar a los niños para buenas posiciones en el futuro	1	2
5. enseñar respeto a la autoridad	1	2
6. ayudar a los estudiantes a desarrollar una personal filosofía de la vida....	1	2
7. Otras	1	2
ESPECIFIQUE _____		

SI LOS NIÑOS ESTAN EN LA ESCUELA, PASE A Q. 51. SI NO ESTAN EN LA ESCUELA, SALTE

- ESPECIFIQUE: _____

58. Ahora, quisiera que nos tiera su opinion sobre un problema muy comun que todos enfrentamos día a día.

A menudo una persona se ve tentado a hacer cosas que le resultan fácil, pero él sabe que si todos hiciéramos lo mismo todos estaríamos peor que como estamos.

Me podría dar un ejemplo de esto? Quiere decir, algo que una persona quisiera hacer porque le resulta mas fácil pero que si todos lo hicieramos estaríamos peor?

APRECIACION DEL ENTREVISTADOR SOBRE LA DIFICULTAD QUE TIENE PARA PENSAR Y CONTESTAR EL ENTREVISTADO SEGUN EL TIEMPO QUE SE TOME.

- muy fácil.....1
- algo fácil.....2
- algo difícil.....3
- muy difícil.....4

SI NO HAY RESPUESTA PASE A LA PREGUNTA 59

A. Porqué es mas fácil o mejor para la persona ésta?

B. Porqué estuviéramos peor si todos lo hacemos?

59. Un ejemplo común de ésta índole es ensuciar. Es mas fácil para una persona si tira papeles, envolturas de cigarros o desperdicio alo largo de la calle, pero si todos hiciéramos lo mismo estaríamos peor.

Me podría dar un otro ejemplo de esta misma cosa?

APRECIACIÓN DEL ENTREVISTADOR SOBRE LA DIFICULTAD CONQUE PIENSA Y CONTESTA EL ENTREVISTADO (SEGUN EL TIEMPO QUE SE TOME).

muy fácil.....1
algo fácil.....2
algo difícil.....3
muy difícil.....4

A. Porqué le es mas fácil para esta person hacer eso?

B. Porqué estuviéramos peor si todos lo hacemos?

Otro importante ejemplo de esta indole tiene que ver con el smog. Es fácil, es barato, y más conveniente para cada persona hacer cosas que contribuyen al smog, tales como: estas en la tarjeta #12.

manejár al trabajo solo en vez de con otros;
manejár en ves de tomár el autobús;
o dejár que su equipo de smog esté en malas condiciones.

Pero entre mas gente hace esto, más sufrimos todos por smog.

Le voy a leer algunas declaraciones sobre el smog. Por cada una, dígame tan fuertemente de acuerdo o desacuerda dandome un numero de esta tabla, en la Tarjeta #13. Número 1 si de acuerdo fuertemente, y numero 6 si desacuerdo fuertemente. Por supuesto que puede usar cualquier número de esta tabla. Dígame cual número represent su manera de sentir.

60. Todos' estuviéramos mejór si cada uno fuera más cuidadoso en no hacer cosas que contribuyen al smog.

de acuerdo fuertemente $\frac{ / \ / \ / \ / \ / \ / }{ 1 \ 2 \ 3 \ 4 \ 5 \ 6 }$ desacuerda fuertemente

61. La mayoría de la gente tiene que hacer una pausa y pensár si hacer o no cosas que ayuden al smog.

de acuerdo fuertemente $\frac{ / \ / \ / \ / \ / \ / }{ 1 \ 2 \ 3 \ 4 \ 5 \ 6 }$ desacuerda fuertemente

62. La mayoría de la gente se siente responsable por la cantidad de smog que tenemos.

de acuerdo fuertemente $\frac{ / \ / \ / \ / \ / \ / }{ 1 \ 2 \ 3 \ 4 \ 5 \ 6 }$ desacuerda fuertemente

63. La gente trata de no hacer cosas que contribuyen al smog.

de acuerdo fuertemente $\frac{ / \ / \ / \ / \ / \ / }{ 1 \ 2 \ 3 \ 4 \ 5 \ 6 }$ desacuerda fuertemente

64. La mayoría de la gente podría ser influenciada para tratar de no hacer cosas que contribuyen al smog.

de acuerdo fuertemente $\frac{ / \ / \ / \ / \ / \ / }{ 1 \ 2 \ 3 \ 4 \ 5 \ 6 }$ desacuerda fuertemente

65. CONTINÚE COMO ANTERIORMENTE USANDO TARJETA #13.

A. Si la mayoría de la gente continúa haciendo cosas que contribuyen al smog, entonces no hay razón el porqué alguien más no lo haga.

de acuerdo fuertemente $\frac{ / \ / \ / \ / \ / \ / }{ 1 \ 2 \ 3 \ 4 \ 5 \ 6 }$ desacuerda fuertemente

- B. Aún si la mayoría de la gente sigue haciendo cosas que contribuyen al smog, una persona cuándo menos, debe de tratar de dar un buen ejemplo no haciendolo.

de acuerdo fuertemente $\frac{/}{1} \frac{/}{2} \frac{/}{3} \frac{/}{4} \frac{/}{5} \frac{/}{6}$ desacuerda fuertemente

- C. Aún si la mayoría de la gente continúa haciendo cosas que se agregan al smog, una persona cuándo menos debe tratar de poner su parte para reducir el smog.

de acuerdo fuertemente $\frac{/}{1} \frac{/}{2} \frac{/}{3} \frac{/}{4} \frac{/}{5} \frac{/}{6}$ desacuerda fuertemente

- D. Aún si la mayoría de la gente continúa haciendo cosas que contribuyen al smog, una persona, cuándo menos, puede sentir que está haciendo lo correcto si no las hace.

de acuerdo fuertemente $\frac{/}{1} \frac{/}{2} \frac{/}{3} \frac{/}{4} \frac{/}{5} \frac{/}{6}$ desacuerda fuertemente

Ahora, dejeme preguntarle de diferentes cosas, puede contestarlas usando la misma tabla.

- E. Si veo a alguien que se le atolló su auto, me siento mal si no paro a ayudar.

de acuerdo fuertemente $\frac{/}{1} \frac{/}{2} \frac{/}{3} \frac{/}{4} \frac{/}{5} \frac{/}{6}$ desacuerda fuertemente

- F. Yo prefiero decidir las cosas cuándo llegan, que planear adelante.

de acuerdo fuertemente $\frac{/}{1} \frac{/}{2} \frac{/}{3} \frac{/}{4} \frac{/}{5} \frac{/}{6}$ desacuerda fuertemente

- G. Cuándo voy manejando me disgusta ceder a otros autos cuando dos carriles se unen.

de acuerdo fuertemente $\frac{/}{1} \frac{/}{2} \frac{/}{3} \frac{/}{4} \frac{/}{5} \frac{/}{6}$ desacuerda fuertemente

- H. Parece ser que yo soy la clase de persona que tiene más mala suerte que buena.

de acuerdo fuertemente $\frac{/}{1} \frac{/}{2} \frac{/}{3} \frac{/}{4} \frac{/}{5} \frac{/}{6}$ desacuerda fuertemente

- I. Si yo estoy en el mercado esperando en línea y tengo bastantes artículos, siempre deajo pasar adelante de mia una persona que solo tengo uno o dos.

de acuerdo fuertemente $\frac{/}{1} \frac{/}{2} \frac{/}{3} \frac{/}{4} \frac{/}{5} \frac{/}{6}$ desacuerda fuertemente.

J. No tiene caso para mí planear adelante porque siempre hay algo que me hace cambiar mis planes.

de acuerdo fuertemente $\frac{ / \ / \ / \ / \ / \ / }{ 1 \ 2 \ 3 \ 4 \ 5 \ 6 }$ desacuerda fuertemente

K. Yo prefiero ganar una discusión que perderla.

de acuerdo fuertemente $\frac{ / \ / \ / \ / \ / \ / }{ 1 \ 2 \ 3 \ 4 \ 5 \ 6 }$ desacuerda fuertemente

L. Muchas veces he sentido que no tiene caso tratar de llegar a algo en esta vida.

de acuerdo fuertemente $\frac{ / \ / \ / \ / \ / \ / }{ 1 \ 2 \ 3 \ 4 \ 5 \ 6 }$ desacuerda fuertemente

Por favor pase a la tarjeta #14 - la tabla es un poco diferente. Número 1 pertenece a extremadamente competidor y número 6 pertenece a extremadamente cooperador.

M. Pensando en la persona típica diría ud. que son básicamente competidora o cooperadora?

ext. competidora $\frac{ / \ / \ / \ / \ / \ / }{ 1 \ 2 \ 3 \ 4 \ 5 \ 6 }$ ext. cooperadora

N. Ahora pensando en supersona, diría ud. que es básicamente competidora o cooperadora?

ext. competidora $\frac{ / \ / \ / \ / \ / \ / }{ 1 \ 2 \ 3 \ 4 \ 5 \ 6 }$ ext. cooperadora

Vamos a regresar a la tarjeta #13 y usar esta escala otra vez.

O. En la vida diaria, la persona típica muchas veces se siente incierta de cómo actuar, si cooperadora o competidora.

de acuerdo fuertemente $\frac{ / \ / \ / \ / \ / \ / }{ 1 \ 2 \ 3 \ 4 \ 5 \ 6 }$ desacuerda fuertemente

P. Casi toda la gente puede ser influenciada por las acciones de otros para así mismo ser más cooperadores.

de acuerdo fuertemente $\frac{ / \ / \ / \ / \ / \ / }{ 1 \ 2 \ 3 \ 4 \ 5 \ 6 }$ desacuerda fuertemente

Q. En efecto, el mundo no sería mucho mejor aun si cada uno fuera más cooperador.

de acuerdo fuertemente $\frac{ / \ / \ / \ / \ / \ / }{ 1 \ 2 \ 3 \ 4 \ 5 \ 6 }$ desacuerda fuertemente

66. Creé ud. que es buena idea buscar nuevos medios de hacer las cosas o creé que es mejor apegarse a las viejos que ya conocemos?

- buscar nuevos.....1
- depende, ambos.....2
- apegarse a lo que tiene.....3
- no sabe.....4

Ahora quisiera hacerle unas cuantas preguntas sobre su salud.

67. Durante el pasado año ha tenido algún problema de salud?

- si.....PREGUNTE A.....1
- no.....SALTE A Q.73.....2

A. Qué fué este problema?

68. Vió a algún doctor para esto? NO INCLUYA LLAMADAS TELEFONICAS

- si.....PREGUNTE A.....1
- no.....SALTE A Q.69.....2

A. Quién fué ese? _____

(1) SI ES DOCTOR O OTRA CLASE DE CURANDERO, PREGUNTE: Dónde vió esto?...?

- en casa.....1
- en consultorio.....2
- clinica de enfermos no hospitalizados.....3
- otros4

ESPECIFIQUE: _____

(2) Me da el nombre y domiciliolío de ésta persona?

(3) SI ES DOCTOR: Cuántas veces habló con su doctor de ésta enfermedad/ accidente?

CANTIDAD: _____

69. Se internó en el hospital por esta enfermedad/accidente?

si.....1
no.....2

70. Faltó unos días a su empleo/escuela/quehaceres domésticos a causa de ésta enfermedad?

si.....PREGUNTE A.....1
no.....SALTE A Q.71.....2

A. Cuantos dias faltó? Dias _____

71. Cómo cubrió su cuenta?

medicare.....1
aseguranza de la compañía.....2
aseguranza personal.....3
dinero al contado.....4
programa público gratuito.....5
otro.....6
ESPECIFIQUE: _____

72. Quedó ud. complacido con los servicios que recibió?

mucho.....1
moderadamente.....2
no muy complacido.....3
nada complacido.....4

73. Voy a leer algunas declaraciones que se mencionan en ésta tarjeta. Por favor pasa la Tarjeta #15. Nada más dígame si está de acuerdo o no está de acuerdo con cada una de éstas declaraciones.

	De Acuerdo	Califica	Desacuerda	No Aplica
a. "Casi siempre no espero a restablecerme después de una enfermedad".....	1	2	3	0
b. "La mayoría de los doctores se interesan más por el bienestar de sus pacientes que ninguna otra cosa".....	1	2	3	0
c. "La mayoría de los doctores cobran mucho por sus honorarios".....	1	2	3	0
d. "Yo creo en consultar diferentes doctores para ver quien me da la mejor atención"..	1	2	3	0
e. "Cuándo pienso que voy a enfermar, me siento confortado hablar con alguien de ello".....	1	2	3	0

	De Acuerdo	Califica	Desacuerda	No Aplica
f. "Tengo mis dudas sobre algunas cosas que dicen los doctores que pueden hacer por uno".....	1	2	3	0
g. "Cuándo estoy enfermo yo exijo que me den todos los detalles de lo que me hacen".	1	2	3	0
h. "Encuentro difícil dar de sí e hír a la coma cuándo estoy enfermo".....	1	2	3	0
i. "Cuándo una persona empieza a aliviarse es muy difícil acostumbrarse a no tener quién le haga las cosas".....	1	2	3	0

Y ahora unas preguntas acerca de algunos problemas de la salud.

74. Cúal es la causa de la viruela Alemana, es:

- honguillo.....1
- virus.....2
- bacteria?.....3

75. Puede la tuberculosis contagiarse de una persona a otra?

- sí.....1
- no.....2

76. Diría ud. que un sintoma (o señal) de diabetis es:

- asucar en la orina.....1
- alergias en la piel.....2
- excesiva tos?.....3

77. Que diría ud. que causa la hernia:

- musculos rotos por levantar objetos pesados....1
- no suficiente ejercicio durante el desarrollo..2
- mala postura?.....3

78. Cúal de estas enfermedades es algunas veces causadas por fumar cigarro:

- anemia.....1
- cancer en los pulmones.....2
- emorroides?.....3

79. Cúal de estas son sintomas de cancer:

- falta de sueño, ansiedad, vision borrosa.....1
- resfriados o frecuentes, mal apetito, temblor o escalofríos?.....2
- sangramiento anormal, un grano que no cicatriza, repentino cambio en el peso, crecimientos?.....3

80. Diría ud. que una emdolia es causada por:

- contacto con una persona enferma.....1
- derrame sanguineo.....2
- insuficiencia de vitamina A en la dieta?.....3

81. La viruela Alemana se puede contajiar por medio de las siguientes causas:

- del alimento a la gente.....1
- de una persona a otra.....2
- de animales enfermos a la gente?.....3

82. Ud. recibe exámenes médicos periódicamente cuando no está enfermo?

- si.....1
- no.....2

83. Creé ud. que una dieta bien balanceada es realmente necesaria para buena salud?

- si.....1
- no.....2

84. Creé ud. que todos debemos ser inmunizados contra enfermedades contagiosas?

- si.....1
- no.....2

85. Le han tomado a ud. rayos X o exámen de la piel para la tuberculosis?

- si.....1
- no.....2

86. En los ultimos cuatro años, cuantas veces algun miembro de su familia ha sido victima de una emergencia medica?

CANTIDAD: _____

A. Considera ud. las facilidades de emergencia medica en esta comunidad como:

- definitivamente adecuadas.....1
- probablemente adecuadas.....2
- NO PREGUNTE ----- incierto (no sabe).....3
- probablemente no muy adecuadas.....4
- definitivamente no son adecuadas?.....5

87. PREGUNTE POR TODAS LAS MUJERES QUE HAN SIDO CASADAS DE 14 AÑOS DE EDAD EN ADELANTE:

Cuantos niños ha tenido.... sin contar abortos? ANOTE ABAYO

<u>Linea##</u>	<u># Niños</u>
_____	_____
_____	_____

88. Cuantos cuartos tiene su vivienda? SIN CONTAR BAÑOS, BAICONES, PASILLOS, PORCHES, O CUARTOS DE UTILIDAD.

CANTIDAD: _____

Y ahora para las últimas preguntas -

89. Que clase de trabajo hace ... (jefe de familia) ahora?

OCUPACIÓN: _____

INDUSTRIA: _____

RETIRADO:SALTE A Q.90.....0

A. Cuánto tiempo le toma (jefe de familia) llegar a su trabajo?

Hrs. _____ Mins. _____

B. Cómo regularmente va de la casa al trabajo? SI SE MENCIONA MÁS DE UNO, ANOTESE POR ÓRDEN DE IMPORTANCIA

- automobil - con otros.....1
- automobil - con nadie.....2

APPENDIX I
OCCUPATIONAL SCALE

NORTH - HATT

Socioeconomic Index of occupations in the detailed Classification of the Bureau of the Census: 1950.

Occupations, by Major occupation groups.

- (1)* Socioeconomic Index
- (2)* Transform to NORC Scale

Explanation of notes:

(3)*

- a. One of 45 occupations used in deriving socioeconomic index from predictors or NORC prestige ratings.
- b. One of 16 occupations poorly or partially matched to NORC titles.
- c. Occupation omitted from statistical analysis of 425 detailed occupations, because it is a grouping or specific titles listed below it.
- d. Occupation omitted from statistical analysis of 425 detailed occupations, because census data are based on fewer than 100 sample cases (corresponding to an estimated population of fewer than 3,000 males).
- e. Occupation omitted from statistical analysis. The census data do not pertain to current members of the armed forces, but to currently unemployed civilians whose last occupational experience was in the armed forces. The data for this occupation do not, therefore, describe soldiers, sailors, and related occupations.
- f. The computed value of the socioeconomic index for this occupation was -3. To avoid the inconvenience of having one index value with a negative sign, this index was arbitrarily changed to zero, which remains the lowest value in the table.

*Heading used in occupational listing item 1 is the code used for this study.

occupations con't.

(1)	(2)	(3)	
78	80	a	Accountants and auditors
60	74	-	Actors and actresses

UNIVERSITY OF CALIFORNIA

LOS ANGELES

THE LOS ANGELES METROPOLITAN AREA SURVEY

(LAMAS)

SURVEY RESEARCH CENTER, UNIVERSITY OF CALIFORNIA,
LOS ANGELES

THE LOS ANGELES METROPOLITAN AREA SURVEY (LAMAS)

The Los Angeles Metropolitan Area Survey, inaugurated in the spring of 1970, is a shared-time omnibus survey of Los Angeles County community members, usually repeated twice a year. LAMAS enables research investigators from universities, governmental agencies (at all levels), and research institutes to obtain data from a representative sample of 1,000 Los Angeles metropolitan area households (city and county) in a more efficient and economical fashion than is possible if each researcher conducts an independent survey.

The cost of participating in LAMAS is on a per question basis, as discussed below, and the contributing researcher receives the results pertaining to his specific questions, plus background data. Shared-time omnibus surveys are not only economical; by reducing the number of independent surveys in the field, they can help minimize the strains aroused in communities whose members feel they have been oversurveyed.

Although each survey is designed to meet the varied needs of contributing researchers, an important LAMAS goal is the development of a set of standard "community profile" measures appropriate for use in studies connected with the planning and evaluation of public policy and action programs. The social profile variables include attitudes and perceptions of living conditions in the neighborhood and of its program needs. A predominant theme in the Center's contribution to the instruments is the inclusion of indexes and scales for "tracking" the development and course of social indicators and the impact of public policy on the community. These social indicators, including social, psychological, health, and economic variables, permit measurement of social change at semiannual intervals and, thus, analysis of short-and long-term trends in the quality of life at the regional level. LAMAS provides an opportunity to investigate specific trends in both the city and Los Angeles County.

In addition to trend studies of attitudes and behaviors, LAMAS provides for panel studies of subsamples of the population. In such studies, the focus is on both probability and purposive construction of panels of respondents to permit more intensive exploration of key social problems than is possible either in a single survey or in analysis of trends in survey results.

USES OF LAMAS

The strength of LAMAS stems from its highly unclustered sample design and the varying types of areal aggregation such samples permit. Data from 100 sampling points in the county can be aggregated at the following levels:

1. Los Angeles County as a whole
2. The city of Los Angeles
3. Independent cities in Los Angeles County
4. Specialized subareas (e.g., county health districts, law enforcement reporting districts, hospital service areas, etc.)

Several studies conducted by the Survey Research Center have used LAMAS data for comparative purposes.

Model Neighborhood Survey. In the spring of 1971, the Center conducted a survey of the Willowbrook/Florence-Firestone communities for the Los Angeles County Model Neighborhood Agency. The survey was to provide baseline data on community conditions (e.g., employment, income, education, health, housing, crime, etc.) to permit assessment of the effects of Model Neighborhood programs after the five-year demonstration period. The same data were gathered from county residents (LAMAS III) to serve as a "control" for county-wide changes that might influence conditions in the model neighborhood independent of program effects. More important, county data were used to establish levels of relative deprivation suffered by model neighborhood residents as a result of their low-income and minority status. The data showed clear differences between county and model neighborhood residents in levels of income, education, employment and occupational status, and in their assessments of the quality of life. Even controlling for minority status (black and Mexican-American) within the county, some differences remain which suggest particular effects of residence in the model neighborhood area (South Central Los Angeles). For example, model neighborhood blacks are more negative about the quality of police protection they receive than are blacks in the county as a whole.

Alcohol Safety Action Project. In the spring of 1972, as part of LAMAS (LAMAS V), the Center conducted the first of four studies on drinking and driving behavior. Los Angeles is one of twenty-six cities in the United States in which this research is being conducted. The project is administered locally by the Alcohol Safety Action Project (ASAP), a consortium of public and private agencies concerned with problems arising from drinking and driving. A four-year research program in LAMAS is planned; in addition to providing descriptive data, we will attempt to evaluate the effects of an ASAP campaign to publicize the dangers of drinking and driving.

Health Care Needs Study. In the spring of 1973, as part of LAMAS (LAMAS VI), the Los Angeles County Department of Health Services and the Comprehensive Health Planning Council of Los Angeles County conducted a survey designed to assess the health status and physician-use patterns of county residents. The survey was undertaken so that county health professionals could generate estimates of frequency and types of illness; disability days; physician, dental, and mental health visits; unmet needs for health service; days of hospitalization; and use of public and private health, hospital, and mental health services. The data will be used to develop specific policy alternatives regarding the expansion, modification, and allocation of resources to current and future health delivery systems. A report of the findings and recommended policy decisions based on the data will be presented to the Los Angeles County Board of Supervisors.

TECHNICAL OPERATIONS

Sampling

The Survey Research Center has recently redesigned its sample of households in the Los Angeles metropolitan area, using the most current Census data. LAMAS utilizes a multistage, stratified probability sample with the following characteristics:

1. Los Angeles County is divided into ten geographic regions: (a) four regions in the city of Los Angeles; (b) one region composed of all unincorporated areas of the county; (c) one region that includes the city of Long Beach; and (d) four other regions: the western, southeastern, eastern, and northeastern municipalities.
2. Block groups in each region are stratified by housing value, percentage owner-occupied, and percentage nonwhite.
3. 100 block groups are sampled from the ten regions.
4. Two block clusters are drawn from each of the 100 block groups, and an address file of 40,000 dwelling units has been compiled. Household respondents are selected according to the method described in Leslie Kish, Survey Sampling, (Wiley, 1965), pp. 396-404.

The unclustered nature of the sample permits the Survey Research Center to oversample selected subpopulations (e.g., ethnic groups within LAMAS), as well as to undertake special studies of subpopulations within specified geographical areas of the county or city. (Additional charges for oversampling in LAMAS or special studies are arranged in conference with the individual investigator.)

Computer Sampling

The Survey Research Center has developed a general computer software package for sampling, using 1970 Census tapes. This package makes it possible to draw an area probability sample at reduced cost for any county in California as well as in the rest of the United States.

Field Operations

A. Procedures

Survey Research Center interviewers are well trained and closely supervised throughout the field process. For example, interviewers are assigned a list of dwelling units and required to select respondents from dwelling units, using strict probability methods; they have been specially trained in the use of this probability selection procedure, and results are closely monitored by central office supervisors. In addition, basic

interviewer training includes workshops and practice interviewing. All instruments fielded by the Center are subjected to a pretest process. Following a final briefing on a specific study, interviewers are permitted to take only one interview before returning to the office for a discussion with the field supervisors. Interviewers are requested to make three calls in order to secure a response, including night and weekend calls. Escorts are provided during unusual hours to maintain an acceptable response rate.

Every instrument is edited and checked for quality immediately upon its arrival at the Center to ensure completeness and accuracy. In addition, approximately 20 percent of the field staff's work is verified in ten-minute interviews with respondents, conducted by telephone when possible but at the homes of respondents when that is the only means by which they may be reached. The verification rate varies with the experience of the interviewer and the complexity of the instrument design and is always higher during the initial stage of a study.

B. Bilingual Research

The Survey Research Center has embarked on a special program for recruiting and training bilingual interviewers who work in the large Mexican-American community of Los Angeles. The Center provides Spanish-language versions of all materials, and interviews are always taken in Spanish when appropriate; bilingual supervisory and quality-control staff work closely with these interviewers.

Data Reduction

LAMAS data are reduced in two stages. In the first stage, precoded questions are edited and punched for analysis purposes on IBM cards from the questionnaire. The precoded questions are then passed on to the data processing section for analysis. This process considerably shortens the time required to produce output, and precoded questions are available for analysis within five weeks after completion of the field operation.

Open-ended questions are coded in the second stage. If the client has submitted open-ended questions, he or she is encouraged to consult with our coding section as they construct the coding frames. During the first week of coding, 100 percent of each coder's work is checked by the supervisor and independent work discussions are commonplace. Twenty percent of the open-ended questions are double-coded, and intercoder reliability figures are reported.

Data Processing and Analysis

Two campus computing facilities are available to the Center's data analysis and programming staffs. Both facilities house IBM system 360, model 91s, and are accessible from interactive terminals at the Center.

LAMAS data are processed using the Statistical Package for the Social Sciences (SPSS). This is a flexible, user-oriented, data manipulation package available for editing, screening, documenting, and transforming a data set

preparatory to making statistical analyses and is particularly useful for the analysis of survey data. Statistical analyses include correlation, nonparametric statistics, regression and multiple regression, Guttman scaling, and a fast factor analysis program.

For the cost of the initial question, the investigator will be given the following statistical output: frequency distributions ("marginals") of the results of the questions contributed by the investigator, and cross-tabulations of these questions by SEX, AGE, INCOME, EDUCATION, ETHNICITY or RACE, and OCCUPATION. *If the investigator has five or more questions, he or she may obtain the data with background variables in the form of punched IBM cards, card-image tape, or an SPSS system file.* Statistical analyses other than those mentioned above can also be performed at the request of the investigator at a negotiated additional cost. Second-, third-, and fourth-count U.S. Census data for the Los Angeles metropolitan area are concatenated with the individual-level data collected through LAMAS and can be provided to the client, again at a negotiated additional cost.

Aggregate Data and Survey Data

The Center has developed a software package for accessing DUALabs Census tapes which considerably reduces the costs of using Census data. The program will selectively decompress only those geographical areas and/or data tables specified by the user, bypassing data he does not want. In addition, the data can be output for processing through standard software packages available on campus (e.g., SPSS, BMD, DATATEXT). Census data combined with survey data from LAMAS expand the data base available to the client and can provide contextual information to complement survey data. In addition, aggregate and survey data can be combined so that relationships between these two levels of data can be examined.

PRE-CODED QUESTION LIST--ONE PART = 1/2 QUESTION, 2 PARTS = ONE QUESTION

We are interested in the way people are feeling these days. During the past few weeks did you ever feel:

	YES	NO	DON'T KNOW
A. pleased about having accomplished something?	1	2	8
<hr/>			
B. very lonely or remote from other people?	3	4	8
<hr/>			
C. that things were going your way?	5	6	8
<hr/>			
D. upset because someone criticized you?	1	2	8
<hr/>			
E. on top of the world?	3	4	8
<hr/>			
F. so restless that you couldn't sit long in a chair?	5	6	8
<hr/>			

	<u>YES</u>	<u>NO</u>	<u>DON'T KNOW</u>
G. bored?	1	2	8
H. proud because someone complimented you on something you had done?	3	4	8
I. depressed or very unhappy?	5	6	8
J. particularly excited or interested in something?	1	2	8

PRE-CODED SORT OPERATION--EACH PART = 1 QUESTION

You hear a lot of talk these days about what might happen if the population of the United States keeps growing. I have some cards here which have on them some of the things people say could happen if the population keeps growing. I would like you to read these cards and put them into three pockets: in one pocket, statements you think are true or probably true and in another pocket, statements you think are not true or probably not true. If you cannot decide about any of these statements, then put them in the pocket labeled "cannot decide." (HAND CARDS TO R. GIVE R TIME TO SORT.)

TIME BEGINNING: _____

TIME ENDING: _____

- A. This country is large enough so that if we build new towns and cities out in the countryside there will be enough space for us even if the population gets much larger.

true 1
not true 2
cannot decide 8

- B. If the population of the country gets much larger, air and water pollution problems will get much worse and will be very difficult to solve.

true 1
not true 2
cannot decide 8

- C. If the country's population gets much larger, we will not have enough food to feed all the people.

true 1
not true 2
cannot decide..... 8

D. How large our population becomes has little to do with whether we can solve other social problems like poverty, crime and slums.

true 1
not true 2
cannot decide 8

E. Even if the population gets much larger, we can find ways to produce enough food to feed all of the people in this country.

true 1
not true 2
cannot decide 8

F. The number of people in a country does not have much to do with whether there is a pollution problem. Pollution is caused mostly by other things.

true 1
not true 2
cannot decide 8

G. Unless we do something to keep this country's population from getting larger, we will not be able to solve problems like poverty, slums and crime.

true 1
not true 2
cannot decide 8

H. If this country's population gets much larger, we will run out of use-able open space and have to live under very crowded conditions.

true 1
not true 2
cannot decide 8

ONE OPEN-ENDED QUESTION--NUMERIC RESPONSE, NO SURCHARGE

Since you first moved to the Los Angeles area, how many times have you moved from one house or apartment to another?

NUMBER OF MOVES: _____

ONE OPEN-ENDED QUESTION, SURCHARGE FOR DATA REDUCTION

Let's say that you are a driver. A traffic policeman stops you and claims that you have broken a traffic law. He wants to give you a ticket. What would you do?

ONE OPEN-ENDED QUESTION WITH RESPONSE DESIGNATIONS: TWO DESIGNATIONS = ONE QUESTION: EACH ADDITIONAL DESIGNATION = 1/2 QUESTION, SURCHARGE FOR DATA REDUCTION

Now, thinking about problems we have here in Los Angeles area (city and county): What do you think are the most important problems we have here in the Los Angeles area?

- (1) _____
- (2) _____
- (3) _____
- (4) _____
- (5) _____
- (6) _____

PRE-CODED RATING SCALE--EACH PART = 1 QUESTION

Now, from what you have just heard, how honest or dishonest a businessman would you say this car dealer is? Here is a card with "very dishonest"--number one--at one end, and "very honest"--number seven--at the other end. You may use any number on the scale. Would you look at this scale and tell me which number comes closest to how you feel?

- A. Please tell me which best represents how honest or dishonest you feel the car dealer has been:

Very dishonest 1 2 3 4 5 6 7 Very honest

- B. Now, here is another card which has another scale. Tell me a number which best represents how wise or foolish you think the car dealer is.

Very wise 1 2 3 4 5 6 7 Very foolish

- C. Here's another card: how unyielding or yielding would you say the car dealer is?

Very unyielding 1 2 3 4 5 6 7 Very yielding

D. How cooperative or competitive would you say the car dealer is?
Very cooperative 1 2 3 4 5 6 7 Very competitive

E. And how unfair or fair?
Very unfair 1 2 3 4 5 6 7 Very fair

F. And how hard or soft would you say this car dealer is?
Very hard 1 2 3 4 5 6 7 Very soft

G. How active or passive would you say he is?
Very active 1 2 3 4 5 6 7 Very passive

H. And finally, how selfish or generous would you say this man is?
Very selfish 1 2 3 4 5 6 7 Very generous

ONE PRE-CODED QUESTION AND ONE OPEN-ENDED QUESTION, WITH SURCHARGE

Suppose the number of people in the Los Angeles area were twice as large as it is today--suppose there were fourteen million people in this area, instead of seven million. Do you think your own life would be different if there were twice as many people living in the Los Angeles area or do you think your own life would be about the same as it is today?

different..... ASK A..... 1
same as now..... 2

A. How would it be different?

SPECIAL SURCHARGES

The LAMAS staff will negotiate specific surcharges under the following conditions:

1. Complex and/or lengthy questions with a number of response options.

2. Computer rotation of a question or questions (e.g., Question X to be asked of half the sample, Question Y to be asked of other half).
3. A question or questions which require the interviewer to read extended information before eliciting a response.

Survey Costs and Economies of Scale

The costs of research in major metropolitan areas are rising at a time when the need for data on urban areas is both urgent and increasing. Costs for independent surveys range from \$50 to over \$100 per case. Highly clustered samples do not save costs, have little flexibility, and can be challenged in terms of their capacity to represent a large, heterogeneous area such as Los Angeles County. Highly unclustered samples provide better coverage of the population but are quite expensive. The LAMAS sample is moderately unclustered and survey costs are reduced because of economy of scale. For example, a \$10,000 input to LAMAS will provide data at an average cost of \$10 per case for a sample of 1,000. As mentioned above, the investigator receives marginals on all his data as well as cross-tabulations with major background variables. The LAMAS staff continuously monitors the quality of information obtained from these background questions (e.g., occupation, education, income) and will modify them to increase their reliability and validity. Such work saves the investigator time in question construction and instrument evaluation and provides high-quality data to relate to his variables of interest.

COST SCHEDULE

Number of Questions (Precoded)	Questions to be Asked of Total Sample	Questions to be Asked of Predetermined Major Sub- populations*
1	\$ 600 - \$ 800	\$ 480 - \$ 600
2	\$1200 - \$1600	\$ 960 - \$1200
3	\$1800 - \$2400	\$1440 - \$1800
4	\$2400 - \$3200	\$1920 - \$2400
5	\$2820 - \$3700	\$2150 - \$2820
Each additional pre- coded question	\$ 450 - \$ 500	\$ 360 - \$ 450
Surcharge for each free response or open-ended question	\$ 300 - \$ 500	\$ 240 - \$400

*Must be predesignated in interview schedule, e.g., Los Angeles
city residents only, men only.

SPECIAL LAMAS CONSULTATION

The costs outlined above are designed to cover the fielding, editing, coding, cleaning, and processing of a fully developed set of questions submitted by the client. Center staff are available on a consulting basis to clients who need or would like special assistance with the developmental aspects of their research. In this case, the client will deposit an additional amount with the Center, apart from question costs as outlined above, to be used for special developmental purposes.

For further information, call LAMAS director at (213) 825-0711.

July 29, 1974

TO: Eve, Mary P., Laurie, and other interested parties

FROM: Mary H. and Vi

SUBJECT: The Truth about LAMAS Field Dates

After much head-scratching, soul-searching, and digging in the musty-dusty files of the Field Office, we are proud to announce that we have assembled the "true" facts (as opposed to facts based on dim memory and/or guesses) about all LAMAS field dates. This memo will supercede all previous memos about field dates so clean out your files, folks! Ready or not, here it comes:

LAMAS I : May 14, 1970 to July 10, 1970

LAMAS II : November 4, 1970 to January 20, 1971

LAMAS III : April 15, 1971 to June 12, 1971

LAMAS IV : October 12, 1971 to January 15, 1972

LAMAS V : March 13, 1972 to May 29, 1972

LAMAS VI : February 5, 1973 to March 20, 1973

LAMAS VII : October 22, 1973 to December 17, 1973

LAMAS VIII : February 11, 1974 to March 20, 1974

Stay tuned to this station for results on the ninth race of LAMAS.

LAMAS IX . 9/16/74 - 12/2/74

LAMAS X 2/9/76 - 4/20/76
